

REMARKS

Claims 1-19 are rejected in the present application. Claim 1 has been amended. Re-examination and reconsideration of pending claims 1-19 is respectfully requested.

The Examiner has rejected claims 1-6, 9-16, and 19 under 35 USC 102 as being anticipated by Geller. Applicant respectfully disagrees.

Applicant has amended claim 1 to add the limitation of "searching the Internet for current attributes of said class in response to submitting said class". Geller does not teach, describe, or suggest such limitation. By contrast, Geller requires a static database that may be periodically updated. The updating is separate from the search functionality. Therefore Geller does not anticipate the claimed invention.

For the foregoing reasons, Applicant submits that the claims 1 - 19 are allowable over the cited art. Applicant asserts that the present application is now in condition for allowance.

If the Examiner should have any questions concerning the foregoing, the Examiner is invited to telephone the undersigned attorney at (310) 712-8300. The undersigned attorney can normally be reached Monday through Friday from about 10:00 AM to 5:30 PM Pacific Time.

Respectfully submitted,
BROWN RAYSMAN MILLSTEIN
